**2013** Tibayrenc, M. & Ayala, F.J. 2013. Unisexual reproduction is a particular case of clonality.

Comment on: Feretzaki F, Heitman J. (2013) Unisexual Reproduction Drives Evolution of Eukaryotic Microbial Pathogens. PLoS Pathog 9(10): e1003674. doi:10.1371/journal.ppat.1003674.

**2010** Tibayrenc, M. 2010. Pour une approche intégrée de la génétique des maladies infectieuses. Sciences au Sud- le journal de l'IRD 55: juin-juillet-août.

**2010** Tibayrenc, M. & Ayala, F.J. 2010. The right meaning of “clonality” and its epidemiological implications. Plos Pathogens. Comment on : “Everything You Always Wanted to Know about Sex (but Were Afraid to Ask)” in Leishmania after Two Decades of Laboratory and Field Analyses

**2010** Tibayrenc, M. & Ayala, F.J. 2010. The right meaning of “clonality” and its epidemiological implications. Plos Pathogens. Comment on : “Everything You Always Wanted to Know about Sex (but Were Afraid to Ask)” in Leishmania after Two Decades of Laboratory and Field Analyses

**2008** Tibayrenc, M. 2008. MEEGID VIII Bangkok, Thailand. Infection, Genetics and Evolution 8: 395-396.

**2007** Tibayrenc, M. 2007. the World CDC belt (W-CDC): An “utopian” vision for controlling major pandemics and infectious diseases in general. ESCMID News 1: 42-43.

**2007** Straub, B. & Tibayrenc, M. 2007. Infection, Genetics & Evolution: a journal with a high impact but no Impact Factor (as yet). Infection, Genetics and Evolution 7 : 145-146.

**2006** Tibayrenc, M. 2006. From MEEGID VII in Valencia to MEEGID VIII in Bangkok: 10th anniversary of the MEEGID congress. *Infection, Genetics and Evolution* 6: 131-132.

**2005** Godreuil S, Cohan F, Shah H, Tibayrenc M. 2005. Which species concept for pathogenic bacteria? An E-Debate. *Infect. Genet. Evol.* 5:375-387

**2005** Tibayrenc, M. 2005. A hard lesson for Europeans: the Asean CDC. *Trends Microbiol.* 13 (6): 266-268.

**2004** Tibayrenc, M. 2004. 2004: MEEGID VII and the year of *Infection, Genetics and Evolution*. *Infection, Genetics and Evolution* 4: 3-4.

**2004** André, J.B., Gupta, S., Frank, S. & Tibayrenc, M. 2004. Evolution and immunology of infectious diseases. what's new? An E-debate *Infection, Genetics and Evolution* 4 (1): 69-75.

**2004** Tibayrenc, M. 2004. The European Commission pocket CDC: encore un effort!. *The Lancet Infectious Diseases*: 4: 12-13.

**2003** Tibayrenc, M. 2003. The European Centre for Infectious Diseases: a project for Europe's needs and historical mission. *ESCMID News* 1: 22-23.

**2003** Tibayrenc, M. 2003. MEEGID VI: Sixth International Meeting on Molecular Epidemiology and Evolutionary Genetics of Infectious Diseases, Paris, 23–27 July 2002. *Infection, Genetics and Evolution* 2: 231-234.

**2003** Tibayrenc, M. 2003. Infectious diseases and the human diversity genome project. *Infection, Genetics and Evolution* 2 (3): 165-166.

**2002** Vergne, L., Müller-Trutwin, M., Lal, R., Tibayrenc, M. 2002. Basic research: what is it good for AIDS epidemiology and control?: An e-debate. *Infection, Genetics and Evolution* 1 (4): 313-320.

**2002** Tibayrenc, M. 2002. Is integrated genetic epidemiology on the way? The MEEGID VI congress. *Infection, Genetics and Evolution* 2 (1): 1.

**2002** Tibayrenc, M. 2002. Basic vs applied research, field vs bench work: the neverending dialogues of the deaf. *Infection, Genetics and Evolution* 1 (4): 263-264.

**2002** Ayala, F.J., Lyons, E., Michalakis, Y. & Tibayrenc, M. 2002 Neodarwinism and infectious diseases transmission: an E-debate. *Infection, Genetics and Evolution* 1 (3): 249-253.

**2002** Tibayrenc, M., Mas-Coma, S., Piffaretti, J.C. & Struelens, M. 2002 (editorial). The European Centre for Infectious Diseases: an adequate response to the challenges of bioterrorism and major natural infectious threats. *Infection, Genetics and Evolution* 1 (3): 179-181.

**2001** Morgan, U., Ochman, H., Renaud, F. & Tibayrenc, M. 2001. Population genetics and population biology: what did they bring to the epidemiology of transmissible diseases? An E-debate. *Infection, Genetics and Evolution* 1 (2): 161-166.

**2001** Tibayrenc, M. 2001. A European centre to respond to threats of bioterrorism and major epidemics. *Bull. WHO* 79: 1094.

**2001** Tibayrenc, M. 2001 (editorial). The golden age of genetics?. *Infection, Genetics and Evolution* 1 (2): 83-84.

**2001** Tibayrenc, M. 2001 (editorial). The golden age of genetics and the dark age of infectious diseases. *Infection, Genetics and Evolution* 1 (1): 1-2.

**2001** Fitch, W., Brisse, S., Stevens, J. & Tibayrenc, M. 2001. Infectious diseases and the golden age of phylogenetics. An e-debate. *Infection, Genetics and Evolution* 1 (1): 69-75.

**1998** Tibayrenc, M. 1998. Coordinating European public health. *Nature* (correspondence) 395: 108.

**1997** Tibayrenc, M. 1997. Microbes Sans Frontières and the European CDC. *Parasitol. Today* 13 (12): 454.

**1997** Tibayrenc, M. 1997. European Centres for Disease Control. *Nature* (correspondence) 389: 433-434.

**1993** Tibayrenc, M. 1993. Speciation and clonality in *Entameba histolytica*. *Parasitol. Today* (correspondence): 9 (8): 293.

**1993** Tibayrenc, M. 1993. Clonality in *Leishmania*. *Parasitol. Today* (correspondence), 9 (2): 58.

**1992** Tibayrenc, M. 1992. *Leishmania*: Sex, Karyotypes and Population Genetics. *Parasitol. Today* (correspondence), 8: 305-306.

**1991** Tibayrenc, M., Kjellberg, F. & Ayala, F.J. 1991. Clonal defence. *Nature* (correspondence), 350: 385-386.
